LIMBS
INTERNATIONAL

Coronavirus and LIMBS Impact

Due to COVID-19, the last three months have been difficult. Since the second week of March, LIMBS staff along with most non-essential workers of El Paso, TX have been working from home.

Although the assembly of the new LIMBS EM4 Knee is on hold, we to continue to strive to stay in touch with donors via our social media accounts and over the phone.

LIMBS continues to give hope and independence to our patients by providing prosthetic devices, rehabilitation services and emotional support.

Thanks to our donors, LIMBS continues to **transform lives ... one step at a time!**

Chihuahua Training

*Prosthetists Erik Lemus,
the Chihuahua DIF's prosthetic department team
along with patient, Mr. Sergio Grajeda.*

Partial foot amputation.

In March 2020, Erik Lemus, a Prosthetist from Mexico City, held a training seminar in Chihuahua, Mexico. He traveled there to help train Chihuahua's DIFs (*The National System for Integral Family Development*) Prosthetic Department team.

Thanks to the partnership LIMBS has with the US Consulate in Ciudad Juarez and Chihuahua State government, Mr. Lemus was able to train the DIF's prosthetic team on how to properly fit a patient with a partial foot amputation.

This on-going training in Chihuahua and other LIMBS clinics help countless amputees in dire need.

LIMBS Progress and Donors

LIMBS International continues to provide prosthetics, therapy, teaching, and holistic emotional support to amputees and their families, thanks to your generous donations.

We are sincerely grateful for your support and financial assistance.

*Raul Saldana, 25 yr old,
ready to conquer life!*

Together we can transform lives ... one step at a time.
